Smart wall paint

whiteboards any surface

Promote your Smart surface

Place your 'I'm a Smart Surface' sticker on the left or right of your Smart surface at shoulder height. This identifies to others that they can write on this surface. If you have a light switch on that wall place the sticker above that.

Tip: When applying your Smart surface sticker, hold the sticker up to the wall and then peel back the backing paper bit by bit and smooth down when adhesive attaches to the wall.

We want to hear from you

We love to get feedback from our customers. We especially love to see pictures of how you use your Smart surfaces.

END USER GUIDE

Welcome to Smart Wall Paint!

If you are reading this, your Smart surface should be ready for you to use.

(If not, please refer to our Application Guide which is contained within each kit and is also on our website (brochure and video guide). These contain all the information you need to apply Smart Wall Paint.)

When can you use your Smart surface?

You can start to use your Smart surface five days after it has been applied.

What do you use to write and draw on your Smart surface?

You can use any whiteboard markers and accessories on your Smart surface. Smart Wall Paint offers a wide range of whiteboard accessories which can be shipped worldwide. Visit our online store to purchase.

How do you clean your Smart surface?

The micro-fibre eraser cloth contained in your kit will wipe off and clean your Smart surface. Note you can wash this cloth (either in a washing machine at maximum temperature or hand wash.)

What if marker stains are stubborn and hard to remove?

In the event a stubborn ink has been used on your Smart surface, or the surface has not been wiped clean in a long time, you may need to use whiteboard cleaning fluid. Simply spray this on over the affected area, and wipe off with your cleaning cloth.

How do I use my Smart surface?

There are many ways to use your Smart surface. It is used all around the world by start-ups, large corporates, universities, schools, homes and contractors. See the 'Creative ideas' section in our website for inspiration in business, education and home environments. Use it for meetings, brainstorming, to-do lists, designs, drawing and doodling, calendars and lots more.

You can also use your Smart surface as a projector screen, and in conjunction with interactive projectors.
